Spring 2010 Cornell Programming Contest

sponsored by Palantir Technologies

- **When:** Saturday, Feb 13, from 1pm until 6pm
- **Where:** Upson 361, Computer Science Undergraduate Lab (CSUG lab)
- **Eligibility:** If you can write a program (in any language you’d like) that can print “hello world” to the console, you can come and participate!
- **Prizes:** We have grand prizes consisting of Wii, iPod touch, and iTunes gift cards. We also have smaller prizes such as laptop bags
- **Special Prizes:** We prepared a couple of problems where your creativity matters more than programming skills. For those problems, the winner will receive one of the grand prizes.
- **Looking for an internship?** If you are interested in interning at Palantir, please bring your resume with you. After the contest, Rick, who interned at Palantir and who’s going back to the company as full-time, will let you know more about the company and answer to your questions
- **Got Questions?** Email [hl364] with subject containing a word ‘CPC’.

This event is sponsored by Palantir Technologies, one of the sponsors of the Cornell ACM programming team. For more information on this, please visit http://www.cs.cornell.edu/acm/
