

# Thinking About Lab 2 and A1

The act of working on Lab 2 is the act of working on A1.

If you are stuck on Lab2 you will probably be stuck on some part of A1.

To avoid Thursday-Friday A1 stress get Lab2 done and checked off Tuesday or Wednesday, using consultant/TA office hours if necessary.

Be careful with your slip days.

# Academic Integrity & The Assignments

**Never** show your group's code to anyone except a member of the course staff.

**Never** look at another group's code.

**Never** "ask for solutions" by posting questions to online services like StackOverflow.

Our view is that Piazza and the assignment-driven Labs give you enough opportunity to talk to one another.

# Academic Integrity & The Assignments

If you are worried about your reliance on outside sources, then cite the source in your submitted code.

What an AI infraction signals:

1. Disrespect for classmates.
2. A misguided approach to learning.
3. Failure to protect yourself against the loss of better judgment.
