# Prelim 1: Takeaways

What to do if you are unhappy with your score:

1. If you lost points because you didn't get a concept, review that concept now with help from a course staffer. Rethink the connection between the problems you got wrong and the related assignments and labs.
2. If you lost points because you did not read the problem carefully or you did not check your answers, then revisit how you take tests.

# Prelim 1: Regrades

Compare your answers and scores with the grading guide.

On a separate piece of paper that includes your name, netid, and section time and location, write down the grading issue. This means a few sentences that relate your answer to what is given in the grading guide. DO NOT WRITE ANYTHING ON THE EXAM ITSELF.

NOTE: A RANDOM NUMBER OF EXAMS HAVE BEEN PHOTOCOPIED.

Staple your regrade request to the front of your exam and give to either Prof Lee or Van Loan before the end of the Thursday (3/24) lecture. No late requests accepted.
