

Homework-2 Errata File

Q4: Assume the data in the memory is zero-extended to 32 bits. So, the data stored at memory location 0 is 0x00001234 and so on.

Q5: A new section (section d - Implementation) has been added.

Q8: Typo in the pseudo-code. It should be -

$c[1] = c[1] + 1;$
