Lecture 16: **Virtual Instruction & Lessons from Prelim 1**

CS 1110

Introduction to Computing Using Python

Agenda

- Welcome back
- Changes to the course
 - Contents
 - Assessment
 - Lectures
 - Labs
 - Assignments (and quizzes)
 - Office/consulting hours and other ways to interact
- Communication
- Lessons from Prelim 1

Lab

- Attend virtually your enrolled lab, Ithaca time, unless you received an email from us about a change
- This week's lab is mandatory for a system check
- Labs given and submitted online
- Use Zoom for interaction. See “CS 1110 guide to Zoom” on the course website before your lab this week
- Students without access to Python have been contacted about “Apps on Demand” run by CIT

Agenda

- Welcome back
- Changes to the course
 - Contents
 - Assessment
 - Lectures
 - Labs
 - Assignments (and quizzes)
 - Office/consulting hours and other ways to interact
- Communication
- Lessons from Prelim 1

Learn from Prelim 1

- If you want to program in the future...
if you want to complete CS1110...
you've got to know Prelim 1 materials
- Now we will
 - review objects, lists, **for**-loop
 - review how to solve problems systematically
