OUTREACH PROGRAMS

Program Name	Program Description	Contact Person	Contact Email	Department/Affiliation
Department of Mathematics	Our program has been engaged in outreach and building solid partnerships with local teachers and schools. Outreach activities fall into three broad categories: Teacher Development, Opportunities for Grades K-12 Students, and Promoting Mathematics Awareness.	Mary Ann Huntley	mh688@cornell.edu	CAS-Mathematics https://math.cornell.edu/outreach
GRASSHOPR	The Graduate Student School Outreach Program (GRASSHOPR) pairs Cornell graduate students with teachers in Tompkins county and Geneva to teach 3- to 5-session mini-courses on topics related to the graduate student's field or interests.	Ryan Post	rjp278@cornell.edu	Cornell University https://sites.google.com/view/grasshopratcornell/home
Expand Your Horizons	A one-day conference for 7th–9th grade girls. The 7th & 8th grade girls each participate in three workshops organized by Cornell students and faculty, while 9th grade girls participate in two extended workshops. The goals of the conference are to stimulate the participants' interest in math and science through these hands-on activities, to provide them with woman scientist role models, and to foster awareness of opportunities in math and science-related careers.		CornellEYHReg@gmail.com	Cornell University https://www.eyh.cornell.edu/participants/registration.php

Splash!	Splash is a very open style of learning, designed to let students explore anything that they are passionate about. If you're passionate about math and science, we have courses on gravitational waves and complex analysis! Perhaps, you're more interested in the humanities, and want to learn about ancient history and creative writing.		splashcornell@gmail.com	Cornell University https://cornell.learningu.org/teach/index.html
Code Red	Code Red Student completes 4 hours of individual community service every month. This can amount to about 2,500 collective hours of community service per year. Students work at local soup kitchens, the Ithaca Children's Garden, or even fixing Ithaca City School District computers.
