

## CHRISTOPHER DE SA

143 Maple Ave, Building #3, Unit #24  
Ithaca, NY 14850  
(520) 425-5828  
cdesa@cs.cornell.edu

### RESEARCH INTERESTS

My research interests include algorithmic, software, and hardware techniques for high-performance data analytics, with a focus on fast parallel variants of stochastic algorithms such as stochastic gradient descent (SGD) and Gibbs sampling. I am also interested in using these techniques to construct data analytics and machine learning frameworks, including for deep learning, that are efficient, parallel, and distributed.

### APPOINTMENTS

**Assistant Professor, Department of Computer Science, Cornell University, 2017–**

### EDUCATION

**Stanford University, Stanford California**

Ph.D. in Electrical Engineering, 2017

*Thesis: Fast Stochastic Algorithms for Machine Learning*

*Advisors: Professors Kunle Olukotun and Christopher Ré*

M.S. in Electrical Engineering, 2011

B.S. in Electrical Engineering, 2011, with Distinction

### AWARDS & FELLOWSHIPS

**ICML Best Paper Award, 2016**

*Awarded for the paper “Ensuring Rapid Mixing and Low Bias for Asynchronous Gibbs Sampling.”*

**Stanford Graduate Fellowship, Stanford University, 2013–2015**

*Awarded to outstanding doctoral students in science and engineering*

**Numerical Technologies Co-Founders Fellowship, Stanford University, 2012–2013**

*Awarded to the top scorer on the Stanford EE Qualifying Exam*

## TALKS

ISCA 2017 — Workshop on Architecture for Graph Processing

STOC 2017 — Plenary Talk

STOC 2017 — Workshop on New Challenges in Machine Learning

## TEACHING EXPERIENCE

*Instructor for CS 4780 – Machine Learning for Intelligent Systems – Cornell – 2018*

*Instructor for CS 6787 – Advanced Machine Learning Systems – Cornell – 2018*

*Teaching Assistant for EE265 – Stanford – Prof. Teresa Meng – 2011, 2012*

## INDUSTRY EXPERIENCE

**Yelp, San Francisco, California**

**Summer Internship Position** – Summer 2012

Developed and implemented algorithms to optimize ad targeting.

**Raytheon Missile Systems, Tucson, Arizona**

**Summer Internship Position** – Summer 2008, Summer 2009, Summer 2011

Investigated algorithms for advanced targeting systems.

## SERVICE

**Reviewer:** NIPS, IEEE Micro, JASA

**Program Committee** — SysML Conference — 2018

**PhD Admissions Committee** — Cornell Computer Science — 2018
