Disaster Type: earthquake
• location: Afghanistan
• date: today
• magnitude: 6.9
• magnitude-confidence: high
• epicenter: a remote part of the country
• damage:
  • human-effect:
    • victim: Thousands of people
    • number: Thousands
    • outcome: dead
    • confidence: medium
    • confidence-marker: feared
  • physical-effect:
    • object: entire villages
    • outcome: damaged
    • confidence: medium
    • confidence-marker: Details now hard to come by / reports say

Thousands of people are feared dead following... (voice-over) ...a powerful earthquake that hit Afghanistan today. The quake registered 6.9 on the Richter scale, centered in a remote part of the country. (on camera) Details now hard to come by, but reports say entire villages were buried by the quake.
SAN SALVADOR, 15 JAN 90 (ACAN-EFE) -- [TEXT] ARMANDO CALDERON SOL, PRESIDENT OF THE NATIONALIST REPUBLICAN ALLIANCE (ARENA), THE RULING SALVADORAN PARTY, TODAY CALLED FOR AN INVESTIGATION INTO ANY POSSIBLE CONNECTION BETWEEN THE MILITARY PERSONNEL IMPLICATED IN THE ASSASSINATION OF JESUIT PRIESTS.

"IT IS SOMETHING SO HORRENDOUS, SO MONSTROUS, THAT WE MUST INVESTIGATE THE POSSIBILITY THAT THE FMLN (FARABUNDO MARTI NATIONAL LIBERATION FRONT) STAGED THIS ASSASSINATION TO DISCREDIT THE GOVERNMENT," CALDERON SOL SAID.

SALVADORAN PRESIDENT ALFREDO CRISTIANI IMPLICATED FOUR OFFICERS, INCLUDING ONE COLONEL, AND FIVE MEMBERS OF THE ARMED FORCES IN THE ASSASSINATION OF SIX JESUIT PRIESTS AND TWO WOMEN ON 16 NOVEMBER AT THE CENTRAL AMERICAN UNIVERSITY.

Fine-grained Opinion Extraction

“The Australian Press launched a bitter attack on Italy”

- **Five components**
  - Opinion trigger
  - Polarity
    - positive
    - negative
    - neutral
  - Strength/intensity
    - low..extreme
  - Source (opinion holder)
  - Target (topic)

**Opinion Frame**
- Polarity: negative
- Intensity: high
- Source: “The Australian Press”
- Target: “Italy”
Information extraction (IE)

• Identify specific pieces of information (data) in a unstructured or semi-structured textual document.

• Transform unstructured information in a corpus of documents or web pages into a structured database.

• Applied to different types of text:
  – Newspaper articles
  – Web pages
  – Scientific articles
  – Newsgroup messages
  – Classified ads
  – Medical notes
  – Subjective language
Template slot types

• Slots in template typically filled by a substring from the document.

• Some slots may have a fixed set of pre-specified possible fillers that may not occur in the text itself.
  – Terrorist act: threatened, attempted, accomplished.
  – Job type: clerical, service, custodial, etc.
  – Company type: SEC code

• Some slots may allow multiple fillers.
  – Programming language

• Some domains may allow multiple extracted templates per document.
  – Multiple apartment listings in one ad
Evaluating IE systems

• Evaluate system performance vs. independent, manually-annotated test data not used during system development.

• Compute average value of metrics adapted from IR:
  – **Recall** = \( \frac{\text{# correct extractions}}{\text{# extractions in gold standard}} \)
  – **Precision** = \( \frac{\text{# correct extractions}}{\text{# extractions by system}} \)
  – **F-Measure** = Harmonic mean of recall and precision
State of the art

- unrestricted text: 65-70% R; 70-80% P
- semi-structured text: 90+% R/P

- terrorist activities
- business joint ventures
- microelectronic chip fabrication
- changes in corporate management
- natural disasters
- summarize medical patient records
- create job-listing databases from newsgroups
- bioinformatics

MUC [1991-94]

ACE [1991-94]
Specifying the Extraction Task

- Define the domain
- **Slots/components in the output template**
  - String fill?
  - Set fill?
  - Normalization?
  - One/multiple fills?
  - Cross-referencing with other slots?
- **Develop manual annotation instructions**
Evergreen Information said Barry Nelsen, who had a heart-bypass operation last week, resigned as president and chief executive. The board formally accepted the resignation of Thomas Casey, its former chairman, who stepped down effective Feb. 2.

Martin Bell was named president, CEO, and chairman. Mr. Bell -- who has been chief financial officer since the fall -- also got voting control of 970,000 shares held by the Evergreen Partnership, a vehicle for the company's three co-founders, including Mr. Nelsen.

Excluding these shares, Evergreen Information has more than two million shares or exercisable warrants outstanding, according to a spokeswoman.

The computer products and services concern has cut its staff to fewer than 10 employees from about 35, and has deferred and reduced managers' salaries. In a press release, it said it believes the company is still viable.

Cavalier King Charles Spaniel
(Ruby Spaniel) (Blenheim Spaniel)
Height: 12-13 inches (30-33 cm.)
Weight: 10-18 pounds (5-8 kg.)

Prone to syringomyelia, hereditary eye disease, dislocating kneecaps (patella), back troubles, ear infections, early onset of deafness or hearing trouble. Sometimes' hip dysplasia. Don't over feed. This breed tends to gain weight easily. Some lines are genetically disposed early onset to a serious heart problem, which sometimes causes early death. When selecting one of these dogs, it is extremely important to check the medical history of several previous generations.

Cavalier King Charles Spaniels are good for apartment life. They are moderately active indoors and a small yard will be sufficient. The Cavalier does not do well in very warm conditions.

Cavalier King Charles Spaniels need a daily walk. Play will take care of a lot of their exercise needs, however, as with all breeds, play will not fulfill their primal instinct to walk. Dogs who do not get to go on daily walks are more likely to display behavior problems. They will also enjoy a good romp in a safe open area off lead, such as a large fenced in yard.

4 Apr Dallas - Early last evening, a tornado swept through an area northwest of Dallas, causing extensive damage. Witnesses confirm that the twister occurred without warning at approximately 7:15pm and destroyed two mobile homes. The Texaco station, at 102 Main Street, Farmers Branch, TX, was also severely damaged, but no injuries were reported. Total property damages are estimated to be $350,000.
