It is the Board's belief that each student should be treated as a person who is expected to be responsible for his/her own behavior. Proper conduct and discipline is necessary to assure an orderly environment in which each person may live and learn to his/her full capabilities in harmony with others. When self-control falters and self-discipline fails, outside intervention must be imposed to protect the rights of others. Discipline should be used to positively direct the behavior of a student toward established standards of conduct, judgment and the rights of others. Ultimately, the parents, school and community share in the expectation of helping students develop self-discipline and acceptance of responsibility for one's actions in school and at all school related activities.

In the Trumansburg Central School District rules and procedures are established to guide students through constructive growth and into mature adulthood. Although the rules and procedures are understood to be generally the same throughout the 3 schools, it is important to note that they have been altered (appropriately) to fit the student age group within the building. They have also been designed in accordance with federal and state education law, commissioner's regulations, and the Safe Schools Against Violence in Education Act (SAVE) legislation. Parents, teachers and others responsible for the welfare and education of all students must cooperate to enforce rules and expectations that teach respecting and acting towards all with civility.

Conduct and discipline is most effective when it deals directly with the problem at the time and place it occurs, and in a way that is viewed as fair to the student. All rules and procedures need to be explained and understood by all in order to be effective. Before seeking outside assistance, teachers should first use resources at their disposal to create a change of behavior in the classroom. When the teacher has made every effort to bring about positive behavioral change, and has been unsuccessful, the student will be referred to the administration. Once done, the administration assumes the role of deciding what further action will be taken.
