

Here is a collection of cool figures from Project 3. There were *many* cool figures but we are showing only three submissions from the Sine-approximation question and three from the draw star question. Good job!

### Error of MySine

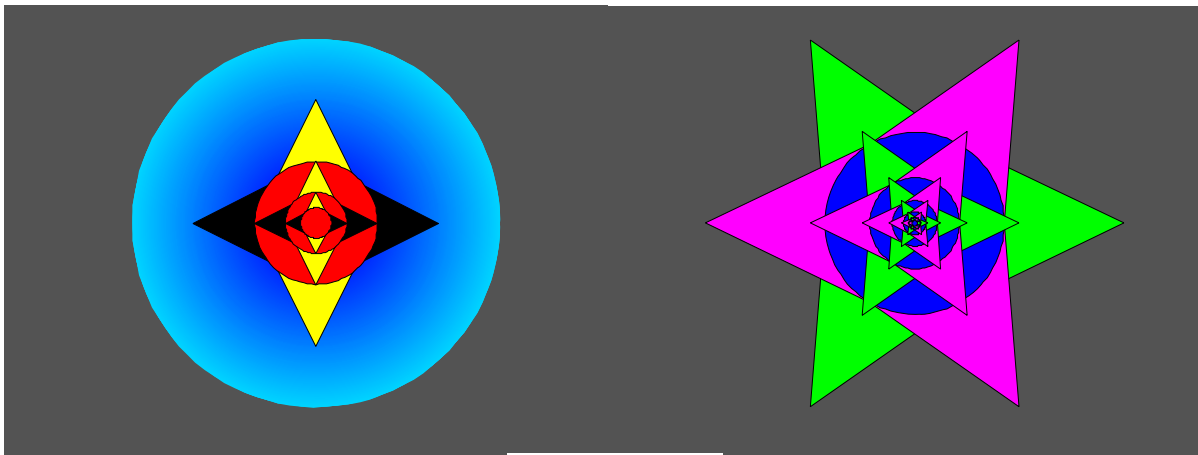

Programmer and artist: *jpm285*

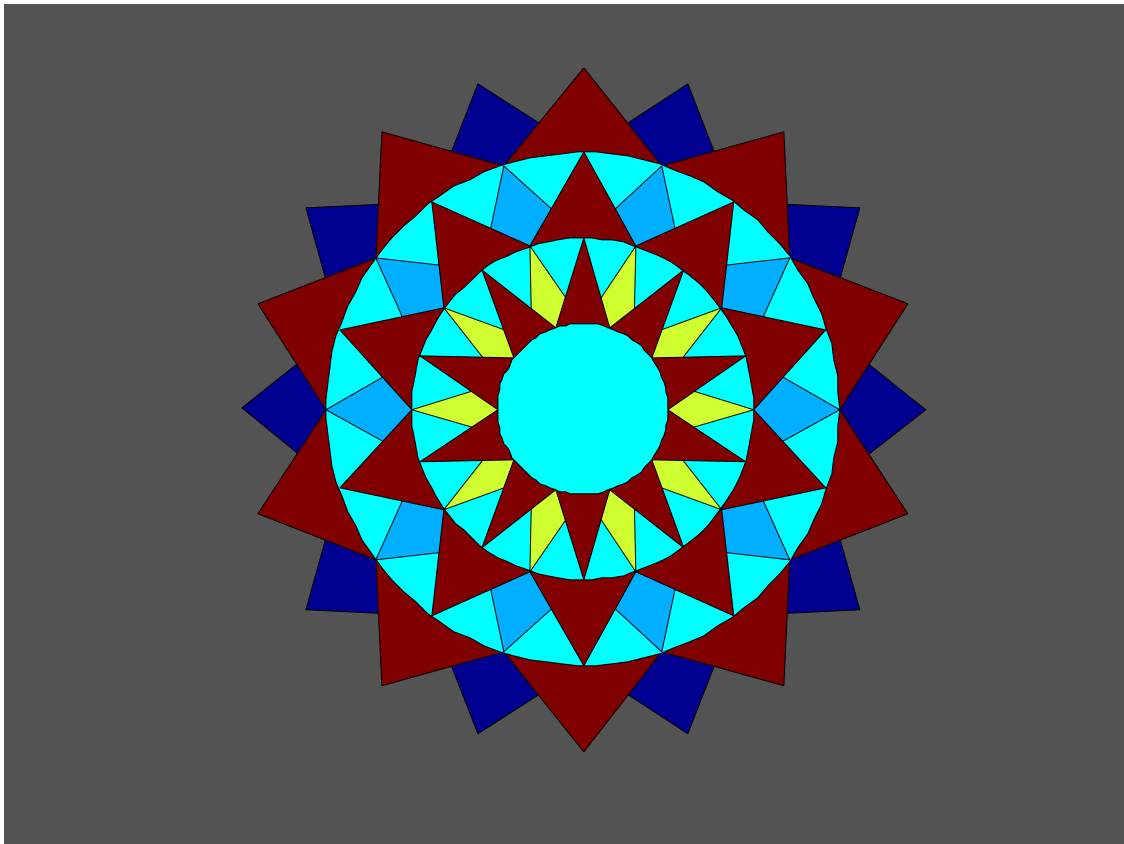

Programmer and artist: *jhb259*

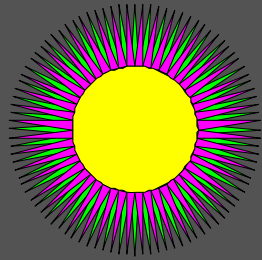

*You would appreciate the above figure more if you could actually run the code to draw the graph. The color scheme starts with a dark background and then fades towards the white background shown!*

### Draw N Stars

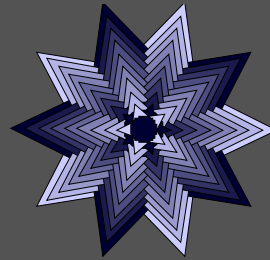

Test Design

First Cool Design

Second Cool Design Third Cool Design
