

Cornell Mathematical Contest in Modeling

(open to all undergraduates)

Sponsored by

- Department of Mathematics
- School of Operations Research & Information Engineering
- Cornell Campus Store

\$400+ in prizes

The CMCM dates: November 13 - 15

Info/training sessions: Tuesday (11/10) at 4:30pm (253 Malott Hall)
Thursday (11/12) at 4:30pm (253 Malott Hall)

Details & sign-up: <http://www.math.cornell.edu/~mcm/>

What is it about?

In a Mathematical Contest in Modeling, teams of undergraduate students build models for a “real-world” problem. ----- Each team has a weekend to brainstorm, do the research, and write up their results. ----- Solutions are evaluated based on feasibility, validation of the model and on clarity of presentation.

Why bother?

- real research experience
- **\$400+ in prizes**
- looks cool on your resume
- winners of the **CMCM** qualify for the **International MCM** (thousands of teams, hundreds of universities, 17+ countries, prestigious prizes, looks *really* cool on your resume)

Interested, puzzled, or simply curious ?

Send your questions to Alex Vladimirovsky (vlad@math.cornell.edu), and/or come to the organizational meetings on 11/10/2015 and 11/12/2015.
