

Transition to Matlab

CS1132 Fall 2012

Dr. K.-Y. Daisy Fan
Wilson Zhou
Ankit Arora

<http://www.cs.cornell.edu/courses/cs1132/2012fa/autotu>

Today's meeting

- Course goals
- Organization and requirements
- Logistics
- Scheduling

Course Goal

Learn how to program in Matlab!

Topics:

- Matlab basics (environment, built-in functions)
- Arrays (vector, matrix)
- Vectorized code
- Control flow (if-else, loops)
- User-defined functions
- Strings and cell arrays
- Graphics
- Basic I/O (including file I/O)

Programming Fundamentals ...

... that you should practice

- Top-down design
- Modular program development
 - Reduce redundancy
- Concise documentation
- Thorough testing

Must-know facts about CSCI 32

- Course ends after 10 weeks: November 9th
- 1 credit (equivalent to 4-5 weeks); S/U
- Auto-tutorial and requires **mastery of material**
 - An average of B (85%) is required to pass the course
 - Average based on four items: Assignments 1 & 2 and Tests 1 & 2
- Assignments
 - If first submission is not perfect, one re-submission is allowed without penalty. Any additional **re**-submission incurs a 10% deduction.
 - Assignment **1a** deadline: **Sept 12th**
 - Assignment **1b** deadline: **Sept 26th**
 - Assignment **2** deadline: **Nov 7th**
 - Late (re)submission allowed up to 2 days for a 10% penalty

Must-know facts about CS1132 (cont'd)

■ Tests

- Take **Test 1** after submission of Assignment 1 (parts a & b)
 - Deadline is **Sept 28th**
- Take **Test 2** after submission of Assignment 2
 - Deadline is **Nov 9th**
- Multiple attempts are allowed, but only once a week
- Final score is the most recent score

- All course materials are online and in the textbook
- **The website is the course**
- Consulting available SMTWVR 5-10pm in Green Rm of ACCEL (Carpenter Hall) starting Aug 30th
- Optional lectures – see website of the lecture-based version of the course <http://www.cs.cornell.edu/courses/cs1132/2012fa/lec>

How to submit homework

- Submit your homework files on **CMS**
- **Resubmitting** a homework:
 - Carefully consider the grader's comments, but the final correctness of your homework is your responsibility.
 - Submit all (corrected) files related to the same question
 - Click the “**Regrade Request**” button
- Submit a homework anytime before its deadline—submissions made by Wednesday will be graded with feedback by Saturday of the same week

How to sign up for a test

- Take Test 1 **after** you submit Assignment 1 parts a & b
- Take Test 2 **after** you submit Assignment 2
- You can sign up after submitting the relevant assignment(s)—no need to wait for grading result
- For each test, sign up for a spot in one of the test sessions listed in CMS.
 - If you have an unsuccessful attempt, sign up for another attempt the following week. Occupy only **one test slot at a time**.
 - Review your test with the TA during office hour before your next attempt!
 - If we see you making repeated attempts without improvement, you *will not be allowed to write the test again* without reviewing with a TA first.
 - We add test sessions throughout the semester, about a week in advance.

Academic integrity

- Electronic submission and the self-paced nature of the course do not alter the University standards on academic integrity
- Your individual work is required
 - Do not copy code from any source (friend, published work, Internet, ...)
 - You can discuss general strategy with others, but do not share any code, whether written, electronic, or verbally
 - We use MOSS or similar software to check your submitted programs

Piazza – online discussion forum

- Active by Monday Aug 27th, day 1 of the course
- Use it for clarification only
- Do not ask how to do an assignment!
- Do not give hints on an assignment
- Do not post any code snippets
- If you need help please see a consultant of the TA

What to do now?

- Check course website!
- Start studying the course material
- Log on CMS (start from course website). If **CSI I32 LEC3** is not listed under “My courses,” then you need to be added to the system. Email [Wilson Zhou <wz85@cornell.edu>](mailto:wz85@cornell.edu) to request this and indicate your **Cornell NetID**.

Recap... deadlines in the auto-tutorial course

■ Module 1

- Sept 12th (W) Last day to (re)submit Assignment 1a
- Sept 26th (W) Last day to (re)submit Assignment 1b
- Sept 28th (F) Last day to (re)take Test 1

■ Module 2

- Nov 7th (W) Last day to (re)submit Assignment 2
- Nov 9th (F) Last day to (re)take Test 2
