

CS 4701: Artificial Intelligence Practicum
Spring 2017
Extra Credit
Due: Friday, May 19, at 11:00 AM

1. Please submit a list of other student's projects that you participated in as a "human subject". For example, if a team built a system to play a game, were you one of the people who played the game for them? Each entry in the list should have the following format:

Team members for that project Project topic What you did

2. Please submit a list of other student's projects whose final reports you provided feedback on. For example, if a team built a system to play a game, were you one of the people who played the game for them? Each entry in the list should have the following format:

Team members for that project Project topic What you did
