

CS 5306 / INFO 5306: Crowdsourcing and Human Computation

Spring 2016

Assignment 0: Getting Mturk and CrowdFlower Accounts

Due: Thursday, 31 August 2017

The goal of this assignment is to make you familiar with the experience of a worker (a “turker”) on Amazon Mechanical Turk (MTurk). The deadline on this assignment is to sign up for an account – there may be some latency with Amazon and CrowdFlower giving you an account.

1. Sign up to be a worker on MTurk by going to www.mturk.com.
2. Sign up to be a work on CrowdFlower by going to <https://elite.crowdflower.com/?view=register>.

Please contact the instructor if you are unable to create an account.
