9. Do you have any other comments to add to your evaluation?

*Please keep your comments constructive and professional, abiding by the Principles of Community*

- Great instructor who handle section well, and went through useful examples. Office hours were very helpful; however, it would be nice to have a room for office hours instead of doing them in an office.

- Mirka was prepared for Discussion with interesting problems from the book even when promised TA materials were not delivered. She adapts well to suggested approaches from her students and works to extend those ideas or explain why they do not work.

- She explains better than the professor.
  Very smart and helpful!!

- She gives harder problems than what you typically see in class and on the exams, but this is a good thing because it encourages you to think.

- She is clearly for the material and she is positive to help student to solve problems.
